Ten percent late charges on unpaid balance after 20 days.

\$20.00 service charge on all returned checks.

Disconnection after approximately 45 days on unpaid balances with a \$50.00 trip charge.

CAPACITY FEES

Once it has been determined that water and/or sewer service is available to your property, a fixture rate sheet should be completed, and confirmed by our Engineering Department before the payment of capacity fees are made. The fixture value worksheet determines the amount of capacity fees due and monthly charges.

Rates are subject to increase March 1 of each calendar year.
